SERVICES OFFERED

Development of Business Applications

| Price Structure | | Cost |
|--|--|--|
| Fixed Price Model | A low risk option, can be employed when the scope & specification of a project are reasonably clear. Includes requirement analysis, development, testing and implementation. | Project specification is required to quote |
| Report wise | Requirements are given by you in terms of number of reports. The charges will depend on the number of reports with all the entry forms associated with the reports required. | US\$ 96 per Master Entry US\$ 178 per Transaction Entry US\$ 96 per Report |
| Time wise | When the scope and specification of a software development project are not easy to define at the outset, a time model is used where the client pays for the hourly efforts. | US\$ 10 per Hour |
| <ul style="list-style-type: none">We will provide you full source code after completion of the project.Free support through Teamviewer upto six months after the project completion.Unlimited Computers and users installation possible. | | |

Documents we need from your end

- Format of all the output reports with Field length, data type etc.
- A fair idea about the calculation & logic of all fields.
